Illustrated by Hermann Becker
Max Brödel and Others

VOLUME ONE

PHILADELPHIA AND LONDON
W. B. SAUNDERS COMPANY
1907
PREFACE.

In the preparation of this work the editors have been continually impressed with the intimate relationship which exists between gynecology and abdominal surgery. Our associates, competitors, and generous critics, the general surgery will not deny that the great advances made in the gynecologic field have constituted the very backbone and the marrow of the abdominal surgery of today and that pari passu with the labors of the gynecologists have gone the developments of the surgery of the abdomen at large. These volumes embracing both subject are living witnesses of the unity of gynecology and abdominal surgery in the practice field, which it is our pleasure to proclaim, as we thus once more assert the unity of our art and the fraternity of those who practise it.

In planning our work the usual classification of the hand-books has been set aside, in order to substitute one of greater practical value to the general practitioner, to the investigator, and to the surgeon.

A considerable section is devoted to medical gynecology, to meet the needs of the general practitioner, who will find the information he requires concentrated in one section, without being under the necessity of searching here and there throughout both volumes.

Certain obstetric or gynecologic-obstetric subjects have been included in our list, such as the puerperal injuries and infections, the treatment of incomplete abortion, ectopic pregnancy, and the Cesarean operations. It is believed this will prove not only of practical value to the physician, but will give the general surgeon practising abdominal surgery without an obstetric training a broader and fuller view of the subject.

Separate chapters have been devoted to the systematic consideration of the etiology and the pathology of the diseases of women. Those wishing to investigate the scientific basis of gynecology will find it suitably set forth in these sections. We believe that no other monograph on pathology as complete as this has appeared in the English language.

Other special chapters have also been written upon subjects usually found in monographs; such as, operations during pregnancy, operations before puerperal conservative operations upon the uterine appendages, and the complications of operations.

Surgical gynecology and abdominal surgery proper have been broadly and liberally dealt with. We have naturally devoted our especial attention to methods of surgical technic, and have been at pains to provide that the operations themselves should be profusely illustrated with fresh, accurate, and graphic drawings.
To prevent the undue expansion of our work, space has been spared by omitting certain elementary matters found in every text-book.

The historical development of gynecology and abdominal surgery has been carefully treated, showing the prominent part played by American surgeons in these fields.

Concerning the relative advantages of the abdominal and the vaginal route for the performance of various operations there are still decided differences of opinion. Here we have presented the claims of the two schools from the affirmative standpoint, by selecting tried advocates to present each side.

The illustrations have been done by, or under the supervision of, Mr. Herman Becker, who has devoted more than four years to his work; almost all the drawings are from his hand; some have been made by Mr. Max Brödel, and others.

Three of our collaborators, Drs. Alexander J. C. Skene, Wm. R. Pryor, and Fernand Henrotin, have died during the preparation of this work. We take pleasure in presenting to the profession their last contributions to gynecology.

The work is the first in which the attempt has been made to cover both the fields of gynecology and of abdominal surgery. Its subject-matter has been further broadened by the consideration of medical gynecology, of various practical subjects usually dealt with only in monographs, and also the gyneco-obstetric field. We hope that this will make our work unique in its presentation and in its claim upon the consideration of the profession.

Howard A. Kelly, M.D., Editors.

AUTHORS OF VOLUME I.

BROOKE M. ANSPACH, M.D. ........................................ PHILADELPHIA
Gynecologist and Obstetrician to the Philadelphia Hospital; Assistant Gynecologist, University Hospital; Instructor in Gynecology, University of Pennsylvania; Pathologist to the Kensington Hospital for Women, Philadelphia.

J. M. BALDY, M.D. ............................................... PHILADELPHIA
Professor of Gynecology, Philadelphia Polyclinic; Surgeon to Gynecological Hospital, Philadelphia; Consulting Surgeon to Jewish and Frederick Douglas Hospitals, Philadelphia.

HENRY T. BYFORD, M.D. .......................................... CHICAGO
Professor of Gynecology and Clinical Gynecology, University of Illinois Medical School; Professor of Gynecology, Chicago Post-Graduate Medical School, etc.

JOHN G. CLARK, M.D. ........................................... PHILADELPHIA
Professor of Gynecology, University of Pennsylvania; Gynecologist in Chief to Hospital of the University of Pennsylvania.

GEORGE M. EDEBOHLS, A.M., M.D., LL.D. ..................... NEW YORK
Professor of Diseases of Women at the New York Post-Graduate Medical School; Consulting Surgeon, St. Francis' Hospital, New York; Consulting Gynecologist, Broadview Hospital, Nyack, N. Y., and St. John's Riverside Hospital, Yonkers, N. Y.

WILLIAM W. FORD, A.B., M.D., D.P.H. ......................... BALTIMORE
Associate Professor of Bacteriology and Lecturer on Hygiene, Johns Hopkins University, Baltimore.

ANNA M. FULLERTON, M.D. ....................................... LUDHIANA
Formerly Physician in Charge, Women's Hospital, Philadelphia; Principal, Medical College for Native Christian Women, Ludhiana, India.

FERNAND HENROTIN, M.D. ......................................... CHICAGO
Late Professor of Gynecology, Chicago Polyclinic; Senior Surgeon to the Alexian Brothers Hospital; Consulting Gynecologist to St. Joseph's Hospital.

GUY L. HUNNER, B.S., M.D. ....................................... BALTIMORE
Associate in Gynecology, Johns Hopkins University; Professor of Genito-urinary Surgery, Woman's Medical College of Baltimore; Visiting Gynecologist, St. Agnes' Hospital, McKeesport, Pa.; Hebrew Hospital, Baltimore; Frederick City Hospital, Frederick, Md.; Consulting Gynecologist, Brattleboro Memorial Hospital, Brattleboro, Vt.

ELIZABETH HURDON, M.D. ........................................ BALTIMORE
Assistant in Gynecology, Johns Hopkins Hospital, Baltimore.

HOWARD A. KELLY, A.B., M.D., LL.D., F.R.C.S. Hon. Edin. BALTIMORE
Professor of Gynecological Surgery, Johns Hopkins University; Gynecologist to the Johns Hopkins Hospital, Baltimore.

BEVERLY MACMONAGLE, M.D. ...................................... SAN FRANCISCO
Ex-Surgeon-in-Chief, California Women's Hospital, San Francisco; Surgeon to the Children's Hospital, San Francisco; Consulting Surgeon to the German Hospital, San Francisco.
CHARLES P. NOBLE, M.D. ................................. PHILADELPHIA, PA.
Clinical Professor of Gynecology, Women's Medical College, Philadelphia; Surgeon-in-Chief, Kensington Hospital for Women, Philadelphia; Gynecologist to the Stetson Hospital, Philadelphia; Consulting Gynecologist, Chester County Hospital, West Chester, Pa.; Consulting Surgeon, Philadelphia Lying-in Charity, Jewish Hospital and Jewish Maternity Hospital, Philadelphia.

ALEXANDER J. C. SKENE, M.D. .......................... BROOKLYN, N. Y.
Late Professor of Gynecology, Long Island College Hospital, Brooklyn, N. Y.; Ex-Professor of Gynecology, New York Post-Graduate Medical School; Gynecologist to the Long Island College Hospital, Brooklyn, N. Y.

J. CLARENCE WEBSTER, A.B., M.D., F.R.C.P.E., F.R.S.E....CHICAGO, ILL.
Professor of Obstetrics and Gynecology, Rush Medical College, in Affiliation with the University of Chicago; Gynecologist to the Presbyterian Hospital and Central Free Dispensary; Consulting Gynecologist to Passavant and St. Anthony's Hospitals, Chicago, Ill.

X. O. WERDER, M.D. ................................. PITTSBURG, PA.
Professor of Didactic and Clinical Gynecology in the Western Pennsylvania Medical College; Gynecologist to Mercy Hospital; Gynecologist to Pittsburg Hospital, etc.
