1832.
CONTENTS

OF

THE THIRD VOLUME.

CHAPTER I.

INTRODUCTORY OBSERVATIONS..........................Page 11

CHAPTER II.

THE QUADRUPEDS OF INDIA.
The Gibbon—Rhinoceros—Lion—Tiger—Hunting-dog—Elephant—
Gigantic Rat—Pangolin—Dog—Bull—Mule—Horse—Bull—Buffalo—
Naga—Cobra—Viper—Krait—Rattlesnake—Chicago—
White Ox—Giraffe—Antelope—Elk—Wapiti—Moose—Horned
Rabbit—Mole—Mink—Weasel—Mink—Marten—
Martes Foina—Ferret—Mink—Kangaroo—

c

CHAPTER III.

THE BIRDS OF INDIA.

Vultures—Lammergeyer—Fondicherry Eagle—Finn Finch of Bengal
—Hawk—owl of Ceylon—Fork-tailed Shrike—Sooie Shrike or Bulbul
—Miss bird—Locust-eating Grackle—Honey-eater—Kingfisher—
Hornbill—Woodpecker—Wryneck—Parrot of Bengal—
Common Peacock—Turtledove—Pigeon—Magpie—
Jungle Cock—Lophophorus—Horned Pheasant—Butterfly—Golden
Plover—Commander Caracara—Gigantric Duck—Anatones—
Guinea—Turkey—Goose—Widgeon—Pink-backed Pochard

CHAPTER IV.

THE REPTILES AND FISHES OF INDIA.

Great Indian Tortoise—Ganges Crocodile—Flying Dragon—
Serpent
Tribe—Viperina Boa—Russelian Snake—Whip Snake—Cobra de Cap-
ello—Water Snake—Pond—Flies—Gymnopus—Indian Re-
mor—Dolphins—Scorpions—Insects—Horse—Zebra—Camel—
Unicorn—Amanur—Clawing Boars—Rabid—Wrest—Leopard
Mackerel—Indian Serpent—Flying Gunard—Exocetus—Mango
Fish—Cetacea

A 2
CONTENTS.

CHAPTER V.
THE SHELLS AND INSECTS OF INDIA.
Sepia—Cosus—Oliva—Cypraea—Ovula—Marginella—Voluta—Murex
—Turbinella—Buccinum, &c.—Bivalves—Spondylus—Pectens,
&c.—Fresh-water Shells—Pearl-fishery—Insects—Coleoptera
Insects—Orthoptera—Insects—Hemiptera—Insects—Kermit—Gea
or Manna—Hymenoptera—Neuroptera, and Diptera—Tribes-
Silk-worm................................................. 101

CHAPTER VI.
PROGRESS OF INDIAN BOTANY—GENERAL DESCRIPTION OF THE VEGETATION.
Climate—Investigator of Indian Botany—Foundation of the Calcutta
Botanic Garden—Liberality of the East India Company—Dr. Wal-
lich's Experiments—His Return to Europe with large Collections—
Generous Conduct of the Court of Directors—Some Results of Dr.
Wallich's Discoveries—Private Journals of Dr. Wright—Extent of
the Indian Flora—General Features of Indian Vegetation on the
Plains and on the Mountains.................................. 116

CHAPTER VII.
SOME ACCOUNT OF A FEW OF THE MORE REMARKABLE INDIAN PLANTS,
IN WHICH THE SPECIES ARE ARRANGED ACCORDING TO THE NATURAL
FAMILIES TO WHICH THEY BELONG.
Plants deserving of particular Notice in the Families, Ranunculaceae—
Magnoliales—Malvaceae—Dipsacaceae—Composites—Thymelaeae
—Santalaceae—Rosaceae—Laguminaceae—Urticaceae—Asteraceae—Ba-
tinaceae—Euphorbiaceae—Oleaceae—Amaranthaceae—Anacardiaceae—
Piperaceae—Rutaceae—Valerianaceae—Cannabaceae—Loranthaceae—Apo-
cynaceae—Verbenaceae—Lilium—Palmae—Gumma—Ferns and
Aceriphyte Plants—Mooses—Algae—Fungi.................. 127

CHAPTER VIII.
CLIMATE.
Himalaes Region—Middle India—Peninsular India—Height of the Land
in the Peninsula—Meteorology—1. Changes in the Pressure of the
Atmosphere; 2. Composition of the Atmosphere; 3. Effects of Mount-
ain-air; 4. Temperature of the Atmosphere; 5. Making of Ice in
India; 6. Snow-line; 7. Height of the Snow-line in the Himalasake;
Mirage; 16. Black Colour of the Sky over the Himalasakes; 17. Zo-
Table of comparative Temperatures................................ 128

CHAPTER IX.
HYDROGRAPHY.
Springs—Hot Springs—Wells—Lakes—Rivers—The Ganges—Length
of the Rivers of India—Cataracts.................................. 130
CONTENTS.

CHAPTER X

GEOLGY AND MINERALOGY.

CHAPTER XI.

CONSTITUTIONS BEST SUITED TO INDIA—PREVENTION OF HEALTH ON BOARD OF SHIP AND AFTER ARRIVAL—MANAGEMENT AFTER RETURN TO EUROPE.

Ages most suitable for Recruits for Indian Service—Ages at which Officers may be sent out—Medical Examination of Recruits—Epilepsy—Smallpox—Cutaneous Eruptions—Ophthalmia—Cautions against Intemperance—Diet—Exercise—Dangers of using Mercury—Gout—Gravel—Complaints peculiarly dark and unusually hot—Rheumatism—Mental Derangement—Scurvy—Consumption—Preservation of Health on board of Ship, and after Arrival in India—Management after Return to Europe

CHAPTER XII.

SPASMONG CHOLERA.

Symptoms—Persons most liable to the Disease—Predisposing Circumstances—Treatment—Precautions necessary to prevent its Attacks—Symptoms and Treatment of the Disease in Britain

CHAPTER XIII.

HINDOO ASTRONOMY.

Origin of Astronomy—Opinions of Bally concerning the Antiquity of the Science in India—Striking Coincidences between the Indian and Arabic Zohara—Hindoo Computation of Time—Periodic Revolutions of the Planets—Theory of Eclipses—Figure of the Earth—Determinations of Latitude and Longitude—Moon's Parallax—Equation of Eclipses and of a Solar Year—Antiquity of the Shrupa Siddhanya and other Astronomical Works—Deductions and Errors of the Hindoo System

CHAPTER XIV.

HINDOO MATHEMATICS.

307
CONTENTS.

CHAPTER XV.
COLONEL LAMBTON'S SURVEYS.
Colonel Lambton appointed to make a Survey across the Peninsula—Advantages possessed by him for this Task—Difficulties of a Triangulometric Survey—Colonel Lambton commences his Labours—Triples carried across the Peninsula—Continuation of the Survey—Death of Colonel Lambton—Conclusions

CHAPTER XVI.
