Immanuel Kant, his life and doctrine

Paulsen Friedrich
IMMANUEL KANT
The speculative philosophy, if it ever could claim me, has frightened me away with its empty formula; I have found no living fountain and no nourishment on this bleak plain. But the deep and fundamental thoughts of the Ideal philosophy remain an everlasting treasure, and for their sake alone one must deem himself fortunate to have lived at this time. . . .

After all, we are both Idealists, and would be ashamed to allow it to be said that things form us and not we things.

Schiller, in his last letter to W. von Humboldt,
April 2, 1803.
