The practical application of the Röntgen rays in therapeutics and diagnosis

Pusey William Allen
Title: The practical application of the Röntgen rays in therapeutics and diagnosis

Author: Pusey William Allen

This is an exact replica of a book. The book reprint was manually improved by a team of professionals, as opposed to automatic/OCR processes used by some companies. However, the book may still have imperfections such as missing pages, poor pictures, errant marks, etc. that were a part of the original text. We appreciate your understanding of the imperfections which can not be improved, and hope you will enjoy reading this book.
THE PRACTICAL APPLICATION

OF THE

RÖNTGEN RAYS

IN

THERAPEUTICS

AND DIAGNOSIS

BY

WILLIAM ALLEN PUSEY, A.M., M.D.
Professor of Dermatology in the University of Illinois; Member of the American Dermatological Association

AND

EUGENE WILSON CALDWELL, B.S.
Director of The Edward N. Gibbs X-Ray Laboratory, University and Bellevue Hospital Medical College, New York; Member of the Röntgen Society of London; Associate Member of the American Institute of Electrical Engineers

Handsomely Illustrated

PHILADELPHIA, NEW YORK, LONDON

W. B. SAUNDERS & COMPANY

1903
CONTENTS.

PART I.
X-RAY APPARATUS AND ITS USE IN DIAGNOSIS.

INTRODUCTION .................................................. 17

CHAPTER I.
THE ESSENTIALS OF AN X-RAY EQUIPMENT ............. 21
Influence Machines, 22—Induction Coils, 22—High-frequency Coils,
24—Available Sources of Electrical Energy, 24—Fluorescent Screens
and Photographic Plates, 27.

CHAPTER II.
X-RAY TUBES ...................................................... 28
General Properties of Tubes, 29—Definition, 29—Penetration, 30—
Production and Dissipation of Heat in Tubes, 31—Operation of the
Tube, 33—Temperature, 34—Clamping the Tube, 34—Connecting
Wires, 34—Punctures, 37—Testing the Tube, 38—The Choice of an
X-ray Tube, 43—Bi-anode Tube, 44—Penetrator Tube, 45—Tubes
with Vacuum Regulators, 45—Thomson Tube, 45—Bario-vacuum
Tube and Regulator, 46—Sayer Tube, 46—Müller’s Regulating
Tube, 49—Tubes with Osmosis Regulators, 50—Hirschmann’s Tube,
51—Water-cooled Tubes, 52—Tubes with Heavy Targets, 52—
Double-focus Tubes, 54—Tubes for Therapeutic Uses, 55.

CHAPTER III.
INDUCTION COILS, INTERRUPTERS, AND THEIR MANAGEMENT ........................................................................... 60
Induction Coil, 60—Winding of the Primary, 60—Insulation be-
tween the Primary and Secondary, 61—Insulation of the Secondary
Winding, 62—Insulation of the Secondary Terminals, 63—Break-
down in Coils, 63—Requirements of an Induction Coil for X-ray
Work, 64—Interrupters, 65—Vibrating Interrupters, 67—Rotary
Interrupters, 70—Mercury Interrupters, 73—Turbine Interrupters,
75—Electrolytic Interrupters, 78—Condensers, 85—Rheostats,
86—Switches, 87—Fuses, 87—Meters, 88—Induction Coil Instal-
lations, 90—Portable X-ray Apparatus, 93.

CHAPTER IV.
STATIC MACHINES AND THEIR MANAGEMENT ............... 98
Size of Machine, 103—Hard-rubber and Mica Plates, 104—Regu-
## CONTENTS

**CHAPTER V.**

**FLUOROSCOPY** ............................................................... 109

**CHAPTER VI.**

**RADIOGRAPHY** ............................................................. 128

**CHAPTER VII.**

**THE PHOTOGRAPHIC MATERIALS AND THEIR MANIPULA-

TION** .............................................................................. 195

**CHAPTER VIII.**

**THE CHOICE OF AN X-RAY OUTFIT** ............................... 208

- Apparatus for, 210—Volt Direct Current, 209—for Alternating-
current Circuits, 211—When no Lighting or Power Circuit is Available, 213—Selection of Tubes, 214—Accessory Appliances, 215.

PART II.

THE THERAPEUTIC APPLICATION OF X-RAYS.

CHAPTER I.

THE EFFECTS OF X-RAYS ON TISSUES 221

CHAPTER II.

THE HISTOLOGICAL CHANGES PRODUCED IN TISSUES BY X-RAYS 249

CHAPTER III.

THE EFFECT OF X-RAYS ON BACTERIA 278
The Effect of X-rays on Bacteria in Cultures, 278—Effect of X-rays on Bacteria in Living Tissues, 283.

CHAPTER IV.

THE CAUSES OF THE PHENOMENA OBSERVED IN TISSUES AFTER EXPOSURE TO X-RAYS 286
What is the Active Agent in the Production of the Tissue Changes Following X-ray Exposures? 286—What is the Property in X-rays that Affects Tissues? 292.

CHAPTER V.

THE TECHNIQUE OF X-RAY EXPOSURES FOR THERAPEUTIC PURPOSES 302

CHAPTER VI.

TREATMENT OF X-RAY BURNS ........................................... 331
Care to Avoid Burns in X-ray Workers, 334.

CHAPTER VII.

INDICATIONS FOR THE THERAPEUTIC USE OF X-RAYS.. 335

CHAPTER VIII.

AFFECTIONS OF THE APPENDAGES OF THE SKIN .......... 339

CHAPTER IX.

INFLAMMATORY DISEASES OF THE SKIN ......................... 363

CHAPTER X.

TUBERCULOSIS AND SIMILAR DISEASES ............................... 371

CHAPTER XI.

CUTANEOUS CARCINOMA ............................................. 403

CHAPTER XII.

CARCINOMA OF THE BREAST AND IN THE THORAX ...... 468

CHAPTER XIII.

DEEP-SEATED CARCINOMA ........................................... 502
Deep-seated Carcinoma of the Head and Neck, 502—Carcinoma of Neck, 502—Conclusions, 505—Carcinoma of Mouth and Pharynx,
