This is an exact replica of a book. The book reprint was manually improved by a team of professionals, as opposed to automatic/OCR processes used by some companies. However, the book may still have imperfections such as missing pages, poor pictures, errant marks, etc. that were a part of the original text. We appreciate your understanding of the imperfections which can not be improved, and hope you will enjoy reading this book.
DEDICATION.

to

REAR-ADMIRAL ROBERT FITZROY.

My dear Sir,

Ever since the time when you conducted me over the magnificent dockyards of your country, I have received so many proofs of your kind recollection of me, that I request you to allow me to dedicate the second edition of this work to you. This I am the more desirous of doing, inasmuch as it is to you that I am indebted for the translation of the first edition, which appeared in the "Meteorological Papers," and for the valuable additions which were then made to it.

Yours with sincere respect,

H. W. DOVE.
