
The Dyer and Colour Maker's Companion

Dyer Dyer

Title: The Dyer and Colour Maker's Companion

Author: Dyer Dyer

This is an exact replica of a book. The book reprint was manually improved by a team of professionals, as opposed to automatic/OCR processes used by some companies. However, the book may still have imperfections such as missing pages, poor pictures, errant marks, etc. that were a part of the original text. We appreciate your understanding of the imperfections which can not be improved, and hope you will enjoy reading this book.

THE
COMPLETE COLOUR MAKER.

SECTION I.

MORDANTS FOR MADDER DYING.

No. 1.

TO MAKE LIGHT PURPLE FOR ONE
COLOUR ON JACONETS.

58 Measures of Water.

2 Do. Acetic Acid, 8° Twaddell.

1 Do. Iron Liquor, 32° do.

Thicken with Flour or Gum, as No. 7.

Note.—Purple Mordants are made from common Iron Liquor, and Pyroligneous or Acetic Acid: the latter is considered best for light shades.
