It is hoped that this Guide will form the most complete, accurate, and reliable Guide, yet published, to the Mountain Region of New Hampshire. Those before issued have been rather guides *to* than *through* the Mountains, containing plentiful descriptions of places on the way, but scanty accounts of views and interesting scenes, really the object of the visit. Omissions and mistakes may, of course, occur. The editor is very solicitous to be favored with corrections of these, founded upon personal knowledge. Travellers willing to make such communications, are requested to address them to the editor of the Guide-Book, care of the Publisher.

The editor has been greatly assisted in the preparation of this book by the late Rev. THOMAS STARR KING, who wrote the description of the eastern side of the Mountains, Rev. DANIEL GOODWIN, of Bangor, Me., and Rev. AUGUSTUS WOODBURY, of Providence, who have each contributed largely to its pages.

This, the tenth edition, has been carefully revised. Many additions have been made to the body of the book, and those errors which have been discovered have been corrected. A map, showing the routes, has been prepared expressly for the book. A map of the mountain region, which will be found to be in every way reliable, also accompanies the volume; it was prepared by Mr. CHAS. H. V. CAVIS, the engineer of the Mount Washington Carriage Road, expressly for this Guide Book.
