The Indian Musalmans

Hunter William Wilson
WORKS BY THE SAME AUTHOR.

THE ANNALS OF RURAL BENGAL.
VOL. I.—THE ETHNOLOGICAL FRONTIER.
FOURTH EDITION.

One of the most important works which the records of Indian literature can show... Yellow-stained volumes from each District Treasury in Bengal, and the stores of Rajas, local information collected by Pandits, all have been laid under contribution: and, as the initial result, we have the first volume of what promises to be a delightful and valuable history.—*Westminster Review*.

If Mr. Hunter does not ultimately compel recognition from the world as a historian of the very first class—of the class to which a score of Englishmen have ever belonged—we bitterly mistake our trade. He has executed, with admirable industry and rare power of expression, a task which, so far as we know, has never yet been attempted: he has given life and reality and interest to the internal history of an Indian Province under British rule—to a history that is without battles, or sieges, or martial deeds of any sort.—*Spectator*.

It is hard to over-estimate the importance of a work whose author succeeds in fascinating us with a subject so generally regarded as uninteresting, and who, on questions of grave importance to the future destiny of India, gives the results of wide research and exceptional opportunities of personal study, in a bright, lucid, forcible narrative, rising on occasion to eloquence.—*Times*.

Mr. Hunter, in a word, has applied the philosophic method of writing history to a new field. The grace, the ease, and steady flow of the writing almost make us forget, when reading, the surpassing severity and value of the author's labours.—*Fortnightly Review*.

Mr. Hunter has written a book which gives promise of a historian scarcely inferior in scholarship, intellectual power, and literary skill to Mr. Froude or Mr. Freeman.—*British Quarterly Review*.

A work of the greatest talent, and one which will make an epoch in Indian literature. The facts are set forth with the scrupulous exactness of an honest and impartial judge, the scientific details are clothed in a dress as once clear and picturesque: and it is not too much to compare Mr. Hunter, as a writer, to Lord Macaulay.—*Revue Bibliographique Universelle*.

A DICTIONARY OF THE NON-ARYAN LANGUAGES OF INDIA AND HIGH ASIA.
BEING A GLOSSARY OF 120 LANGUAGES BASED UPON THE HODGSON PAPERS, OFFICIAL RECORDS, AND MSS.
WITH A DISSERTATION.
(The Author withdraws some of the Linguistic Inductions.)

We trust that this book will be the starting-point in a new era for our Indian Empire, and that the course recommended in it will immediately engage the attention of our Indian statesmen.—*Ahimsa*.

A prodigious work—the conception of which was courageous, the execution laborious in the extreme.—*Saturday Review*.

The primitive Non-Aryan population of India has seldom been the subject of European research. The ignorance of their habits and views inevitably brings forth mistakes in dealing with them, and the Editor traces their chronic hostility to the British power in a large measure to this source. He discloses the means for putting an end to this unhappy state of things, and for utilising the tribes as soldiers and reclaimers of the soil....

Besides this very practical aim, Mr. Hunter's Dictionary will bring the important ethnographical questions, which he has propounded in his Dissertation, nearer to a definite solution.—*Literarisches Centralblatt*. A
A DISSERTATION,
POLITICAL AND LINGUISTIC,
ON THE
NONARYAN RACES OF INDIA:
TAKEN FROM 'THE NONARYAN DICTIONARY.'
(The Author withdraws some of the Inductions in the Linguistic Part, but not one word in the Political.)

'Mr. Hunter has prefixed to the body of his work a Dissertation which it is within our competence to appreciate, and which we unhesitatingly pronounce to contain one of the most important generalizations from a series of apparently isolated facts ever contributed to Indian history... It is between these [Non-Aryan] masses and the British Government that Mr. Hunter hopes his book to establish a lasting link; and whatever the result of his linguistic labours, in this one labour of mercy he has, we believe, succeeded. Non-Aryans will not again be shot down on the faith of statements from Hindu settlers, who first seize their lands, and then bind them down, under the Indian law of debt, into a servitude removed from slavery.'—Spectator.

'The political value of Mr. Hunter's new book is this, that he has put before the public, official and non-official, such a view of the character and capacities of the Non-Aryan tribes, and of our gross mismanagement of them in the past, that no one, whether the Government or the Christian Church, will henceforth withhold from them the civilisation which will convert at least twelve millions of frank, truthful, industrious races, into the most loyal of our subjects.'—Friend of India.

'It is a singular good fortune for the aboriginal tribes of India to have drifted into the favour of so brilliant a writer and so accomplished a scholar. Their connection with Mr. Hunter was one of those accidents in history which are the mother of great events.'—Hindu Patriot.

DEDICATION.

SIMLA, 23d June 1871.

MY DEAR HODGSON,

I DEDICATE this little book to you in acknowledgment of the benefit which I have derived from your labours. You, of all the scholars whom our Service has produced, have most fully recognised the duty of studying the people. The greatest wrong that the English can do to their Asiatic subjects is not to understand them. The chronic peril which environs the British Power in India is the gap between the Rulers and the Ruled. In these pages I have tried to bring out in clear relief the past history and present requirements of a persistently belligerent class—of a class whom successive Governments have declared to be a source of permanent danger to the Indian Empire.

I am,

Yours sincerely,

W. W. HUNTER.
