CABLE ADDRESS:—"REDUCTION PITTSBURGH,"

USE A. B. C. CODE (FOURTH EDITION), OR A I CODE, OR LIEBER'S CABLE CODE.

BRANCH OFFICE:

701 Ferguson Building, - No. 319 Third Avenue,

PITTSBURGH, PA.

New York Store, 10 & 11 Havemeyer Building, No. 26 Cortlandt Street,  
Philadelphia Store, 360 Bullitt Building, No. 133 South Fourth Street,  
Chicago Store, Nos. 156 and 158 Lake Street.

WORKS:

NEW KENSINGTON, WESTMORELAND COUNTY, PA.

NIAGARA FALLS, NIAGARA COUNTY, N. Y.

U. S. A.

1897.

## CONTENTS.

### PART I.

#### Data with Reference to Aluminum.

| INGOTS:   | PAGE. |
|---|-------|
| Shape of ordinary Ingots furnished by The Pittsburgh Reduction Company.....   | 2     |
| Standard Re-melting Ingots.....   | 3     |
| Hollow Tube Ingots.....   | 3     |
| ACKNOWLEDGMENTS.....  | 4     |
| PURITY, COMPOSITION, ETC.:  |       |
| General Characteristics.....  | 5     |
| Composition and Forms of Aluminum as sold by The Pittsburgh Reduction Company.....                                    | 7     |
| No. 1 grade.....  | 7     |
| Extra Pure Aluminum.....  | 7     |
| No. 2 grade.....  | 7     |
| Rolling Ingots.....   | 7     |
| Rolling Slabs.....  | 8     |
| Aluminum Ingots for Re-melting.....   | 8     |
| Aluminum Bronze Powder.....   | 9     |
| Data on Varnish for Aluminum Bronze Powder.....   | 9     |
| <b>Properties of Aluminum,<br/>Including Data Regarding some of the Properties of<br/>Other Metals for Reference.</b> |       |
| Solubility.....   | 10    |
| Galvanic Action.....  | 11    |
| Position in Electro-Chemical Series.....  | 12    |
| Melting Point of Aluminum.....  | 13    |
| Melting Points of Various Substances.....   | 13-16 |
| PHYSICAL PROPERTIES OF METALS:  |       |
| Physical Properties of Metals.....  | 17-18 |
| Latent Heat of Fusion.....  | 19    |
| Comparative Specific Heats.....   | 20    |
| Specific Heats and Combining Numbers.....   | 21    |
| Specific Heats of Metals.....   | 22    |
| Linear Expansion.....   | 23    |
| Co-efficients of Linear Expansion.....  | 23-24 |
| Characteristics of Metals.....  | 25    |
| Conduction of Heat.....   | 25    |
| Relative Thermal Conductivity.....  | 25    |
| ELECTRICAL PROPERTIES OF METALS:  |       |
| Electrical Conductivity of Aluminum.....  | 26-27 |
| Relative Electrical Conductivity.....   | 28    |
| IMPURITIES.....   | 28    |
| HARDNESS AND ELASTICITY.....  | 29    |
| Order of Ductility of Metals.....   | 30-31 |
| Order of Malleability of Metals.....  | 30-31 |
| Malleability.....   | 31    |

## PART II.

### Gauges, Tables, Etc.

|  |         |
|--|---------|
| GAUGES.....  | 100     |
| Comparison of Wire and Sheet-Metal Gauges (table).....                           | 101     |
| Master Mechanics' Standard Gauge (table).....                                    | 102     |
| WEIGHTS OF ALUMINUM, WRO'T IRON, STEEL, COPPER, BRASS, ETC.                      |         |
| Weight of Aluminum, Wrought Iron, Steel, Copper and<br>Brass Plates (table)..... | 103     |
| Weight of Sheet and Bar Alum.; also Brass and Steel (table)                      | 104     |
| Relation in Weight of Rolled Plates—Aluminum and<br>Copper (table).....          | 105     |
| Weight of Zinc Sheets of Standard Dimensions (table)...                          | 105     |
| Relation in Weight, Aluminum and Tin Plates (table)...                           | 106     |
| Weight of Sheet Metals, Kilos per Square Metre (table)...                        | 107-111 |
| Weight of Flat Rolled Bars of Aluminum (table).....                              | 112-117 |
| Weight of Aluminum Bars, Areas and Circumferences (table)                        | 118-119 |
| Diameter and Weight of Aluminum and Copper Wire (table)                          | 120     |
| Weight of Aluminum, Wrought Iron, Steel, Copper and<br>Brass Wire (table).....   | 121     |
| RESISTANCE OF WIRE :   |         |
| Resistance of Pure Aluminum Wire (table).....                                    | 122     |
| Resistance of Pure Copper Wire (table).....                                      | 123     |
| SEAMLESS TUBING :  |         |
| Standard Sizes of Seamless Tubing Kept in Stock (table)                          | 124     |
| Aluminum Pipe Sizes to correspond with Iron Tubes (table)                        | 125     |
| Weight per Ft. of Aluminum Tubing, outside diameter (table)                      | 126-127 |
| Safe Pressures on Aluminum Tubing (table).....                                   | 128-130 |
| RIVETS :   |         |
| Rivets and Burrs.....  | 131     |
| Round Head Rivets Kept in Stock (table).....                                     | 131-132 |
| Flat Head Rivets Kept in Stock (table).....                                      | 133     |
| ANGLES :   |         |
| Thickness of Aluminum Angles.....  | 133     |
| Weight per Foot of Aluminum Angles (table).....                                  | 134     |
| DECIMAL EQUIVALENTS :  |         |
| Decimal Parts of a Foot in Square Inches (table).....                            | 135     |
| Dec'l Equivalents of 8ths, 16ths, 32ds, 64ths of an In. (table)                  | 136     |
| Decimal Equivalents of an Inch for each $\frac{1}{8}$ (table).....               | 137     |
| Decimal parts of a Foot for each $\frac{1}{8}$ of an Inch (table)....            | 138-141 |
