INTRODUCTORY NOTE

In some measure this book is a continuation of My Four Years in Germany, the narrative here being carried up to the time of my return home, with some observations on the situation I have found in the United States.

What I want especially to impress upon the people of the United States is that we are at war because Germany invaded the United States—an invasion insidiously conceived and vigorously prosecuted for years before hostilities began;—that this war is our war;—that the sanctity of American freedom and of the American home depend upon what we do NOW.
